

SIDI MOHAMED SAWADOGO

UNIVERSITÉ DE MONTRÉAL
Department of Economics

Email: sidi.mohamed.sawadogo@umontreal.ca

Phone: +1 514 804 8299

Homepage: sidi-sawadogo.github.io

Status: Canadian Permanent Resident

Education

- 2021–27 **Université de Montréal**
Ph.D. in Economics, expected 2027
GPA: 4.12/4.30
- 2016–19 **École Nationale de la Statistique et de l'Analyse Économique (ENSAE)**
M.Sc. in Statistics and Economics, *Ingénieur Statisticien Économiste*, with distinction
Flagship five-year degree; admission by competitive examination
- 2013–16 **Université Nazi Boni**
B.Sc. in Mathematics, with distinction
Ranked first nationally among Mathematics graduates in Burkina Faso; *Bourse Intermédiaire*

Fields

- Primary Industrial Organization; Econometrics.
- Secondary Applied Microeconomics; Public Economics.

Job Market Paper

“Effects of Subsidies on Welfare and Market Structure in the U.S. Broadband Industry”
Sole-authored. Finalist, 2025 Bank of Canada Graduate Student Paper Award.
Affordability (ACP) and deployment (BEAD) subsidies are *complements, not substitutes*: ACP lowered prices 7–10% in served, low-income markets, while BEAD relaxes infrastructure constraints in unserved and monopoly markets, delivering a 25-year benefit–cost ratio of about 26 (25.9–27.4) versus near break-even for ACP. The findings come from a structural model of broadband demand, pricing, and entry, using 170,419 products across 66,454 census tracts, with entry fixed costs bounded by a moment-inequality estimator. Build where deployment is uneconomic, then subsidize affordability where price still binds. [\[Paper\]](#) [\[Replication guide\]](#)

Working Papers

“Efficient and Debiased Estimation of Dynamic Discrete Choice Models”
Sole-authored. Neyman-orthogonal, debiased estimators for dynamic discrete choice models that remain $\sqrt{n}$ -consistent and asymptotically normal under machine-learning first-stage estimates. [\[SSRN\]](#)

“Target-Population Fragility in Judge IV under Average Monotonicity” with Mohamed Coulibaly
Average-monotonicity assumptions in judge-IV designs leave the implied target population fragile, so the estimated effects lack a stable interpretation. [\[Paper\]](#) [\[Appendix\]](#)

Selected Works in Progress

“Selection on Structural Errors in Moment-Inequality Estimation of Discrete Games”
with Mohamed Coulibaly

“Fintech Entry and Agent Selection in Mobile Money Markets: Evidence from Senegal”

Fellowships, Grants, and Awards

2026–27	Ph.D. Scholarship, Maison des Affaires Publiques et Internationales, FAS [Portrait (FR)]
2025	Finalist, Bank of Canada Graduate Student Paper Award
2025–26	J.W. McConnell Foundation Chair Scholarship in American Studies
2024–26	Fonds de recherche du Québec, Société et culture (FRQSC) Fellowship, ranked 2nd [Record]
Earlier	Ph.D. Fellowship, Economics & CIREQ (2021–24); Bourse d’excellence des citoyens du monde, Laval (2020); World Bank Vice President’s Program for African Statistical Schools (2019–21); Scholarships of Excellence, ENSAE and Université Nazi Boni.

Presentations

Invited	Competition Bureau of Canada, Gatineau (2025); Bank of Canada Graduate Student Paper Award Workshop, Ottawa (2025).
2026	African Econometric Society Conference (Cairo); AMIE Workshop; CIREQ; Industrial Organization Study Group (Montréal).
2024–25	Canadian Econometrics Study Group Annual Meeting (Toronto); CIREQ Econometrics Conference (Montréal); Congrès SCSE (Orford); QPESF Workshop; Industrial Organization Study Group; CIREQ-UdeM Seminar.

Experience

Employment

2019–21	Economist Consultant, World Bank Co-authored the Mali and Chad Poverty Assessments on growth, resilience, and poverty reduction, and the Gambia Economic Update, informing country policy dialogue. [Mali] [Chad] [Gambia]
---------	---

Teaching, Université de Montréal

Instructor	ECN1260 Econometrics (BA), Fall 2025; ECN1000 Principles of Economics (BA), Summer 2025 and Fall 2023.
Teaching Assistant	ECN6310 Econometric Theory (PhD), Fall 2025 and 2024; ECN2160 Econometrics (BA), Fall 2026, 2025, and 2024; ECN7061 Probability for Economists (PhD), Fall 2022.

Skills

Methods	Structural IO; dynamic discrete choice; moment-inequality and simulation-based estimation; semiparametric methods; policy evaluation.
Computing	R, Stata, Python, MATLAB; GIS; reproducible research workflows; high-performance computing on Compute Canada clusters; $\LaTeX$.
Training	Reproducible Research Fundamentals, World Bank. [Certificate]
Languages	French (native); English (fluent; graduate coursework, teaching, and research conducted in English).
