

SIDI MOHAMED SAWADOGO

UNIVERSITÉ DE MONTRÉAL
Department of Economics

Contact Information

Email: sidi.mohamed.sawadogo@umontreal.ca

Phone: +1 514 804 8299

Homepage: sidi-sawadogo.github.io

Citizenship: Canadian

U.S. work authorization: Eligible to seek TN status for qualifying economist positions under USMCA

Education

2021–27 **Université de Montréal**

Ph.D. in Economics, expected 2027

2016–19 **École Nationale de la Statistique et de l'Analyse Économique (ENSAE)**

M.Sc. in Statistics and Economics, *Ingénieur Statisticien Économiste*, with distinction

2013–16 **Université Nazi Boni (ex. Université Polytechnique de Bobo)**

B.Sc. in Mathematics, with distinction

Fields

Primary Industrial Organization, Econometrics

Secondary Applied Microeconomics, Public Economics

Job Market Paper

“Build or Subsidize? The Welfare Effects of Deployment and Affordability Subsidies in U.S. Broadband”

Sole-authored. Finalist, 2025 Bank of Canada Graduate Student Paper Award.

Counterfactual (but-for) simulation of market outcomes under alternative subsidy regimes. ACP and BEAD subsidies are *complements, not substitutes*: ACP cut prices 7–10% in served, low-income markets; BEAD relaxed entry constraints in unserved markets, delivering about \$26 in welfare per subsidy dollar (range: \$25.9–\$27.4) versus near break-even for ACP. Structural model of broadband demand, pricing, and entry (170,419 products, 66,454 census tracts); entry costs bounded via a moment-inequality estimator. Build where deployment is uneconomic; subsidize affordability where price still binds. [\[Paper\]](#) [\[Replication guide\]](#)

Working Papers

“Efficient and Debiased Estimation of Dynamic Discrete Choice Models”

Sole-authored. Neyman-orthogonal, debiased estimators for dynamic discrete choice models that remain $\sqrt{n}$ -consistent and asymptotically normal under machine-learning first-stage estimates. *Applications: dynamic pricing, market entry, and merger simulation.* [\[SSRN\]](#)

“Target-Population Fragility in Judge IV under Average Monotonicity” with Mohamed Coulibaly

Average-monotonicity assumptions in judge-IV designs leave the implied target population fragile, so the estimated effects lack a stable interpretation. *Applications: causal inference for regulatory and litigation settings.* [\[Paper\]](#) [\[Appendix\]](#)

Selected Works in Progress

“Selection on Structural Errors in Moment-Inequality Estimation of Discrete Games”

with Mohamed Coulibaly

“Fintech Entry and Agent Selection in Mobile Money Markets: Evidence from Senegal”

Fellowships, Grants, and Awards

2026–27	Ph.D. Scholarship, Maison des Affaires Publiques et Internationales, FAS [Portrait (FR)]
2025	Finalist, Bank of Canada Graduate Student Paper Award
2025–26	J.W. McConnell Foundation Chair Scholarship in American Studies
2024–26	Fonds de recherche du Québec, Société et culture (FRQSC) Fellowship, ranked 2nd
Earlier	Ph.D. Fellowship, Economics & CIREQ (2021–24); Bourse d’excellence des citoyens du monde, Laval (2020, offer declined); World Bank Vice President’s Program for African Statistical Schools (2019–21); Scholarships of Excellence, ENSAE and Université Nazi Boni.

Presentations

Invited	Competition Bureau of Canada, Gatineau (2025); Bank of Canada Graduate Student Paper Award Workshop, Ottawa (2025).
2026	African Econometric Society Conference (Cairo); AMIE Workshop; CIREQ; Industrial Organization Study Group (Montréal).
2024–25	Canadian Econometrics Study Group Annual Meeting (Toronto); CIREQ Econometrics Conference (Montréal); Congrès SCSE (Orford); QPESF Workshop; Industrial Organization Study Group; CIREQ-UdeM Seminar.

Experience

Employment

2019–21	Economist Consultant, World Bank Co-authored the Mali and Chad Poverty Assessments, analyzing growth, resilience, and poverty reduction. Co-authored the Gambia Economic Update, informing country policy dialogue.
---------	--

Teaching, Université de Montréal

Instructor	ECN1260 Econometrics (BA), Fall 2025; ECN1000 Principles of Economics (BA), Summer 2025 and Summer 2023.
TA	ECN6350 Econometrics (graduate), Fall 2025 and 2024; ECN2160 Econometrics (BA), Winter 2025; ECN1000 Principles of Economics (BA), Fall 2023; ECN7061 Probability for Economists (Ph.D.), Fall 2022.
Evaluation	3.6–3.9/4 across four evaluated courses, at or above the department average in every course since 2024.

Skills

Methods	Structural IO; dynamic discrete choice; moment-inequality and simulation-based estimation; semiparametric methods; policy evaluation.
Computing	R, Stata, Python, MATLAB; GIS; reproducible research workflows; high-performance computing on Digital Research Alliance of Canada clusters; $\text{\LaTeX}$.
Training	Reproducible Research Fundamentals, World Bank.
Languages	French native; English fluent.
